Hi Mike –

I believe that the EPA activities at the Site ended in Fall 2011. I copied Myles Bartos, who last directed the EPA activity, in case there is a different answer.

Hi Mike,

My name is Mike Lattanze. I work for Penn E&R and we are currently implementing a Phase I ESA for the subject site. We have reviewed the documents that are provided on the EPA's website, but cannot seem to find any information/data for the site since April 2011. Has anything been done at the property since that time and if so, where can I find the associated documentation? As with most due diligence projects, our client has a short period to gather this information so your quick response would be much appreciated.

Thank you in advance for your help regarding this matter.

Best Regards,  
Mike
